About

I am a UI/UX Designer and Frontend Developer with a passion for creating simple, user-friendly digital experiences. By combining skills in design and development, I can take a product from concept and wireframes all the way to fully functional, responsive interfaces. My focus is on building intuitive, visually engaging, and accessible solutions that not only look great but also solve real business problems.

Hard skills

- UI/UX Design / Figma / Atomic design
- Research / Wireframes / Interactive prototypes
- HTML / JSX
- SASS / SCSS / CSS Modules / CSS in JS
- JavaScript / TypeScript
- Vite / React.js / Next.js
- Git / REST API / Swagger
- Zustand / Storybook
- Adaptive layout / SEO / Schema.org
- Component oriented architecture
- English B2 (upper-Intermediate)

Soft skills

- Agile / Scrum / Kanban / Task tracker
- Communication / Teamwork / Collaboration
- Results oriented / Problem solving
- Attention to detail / Empathy
- Critical thinking / Continuous learning

Freelance (2012–2019)

- Delivered 50+ websites for small businesses
- Handled full-cycle development: UI/UX, frontend, CMS, SEO
- Worked directly with clients, managed deadlines, and ensured quality delivery

Teachbase (2019–2024)

Company

- Web platform for online education
- teachbase.ru

Position
